Vista del login:

The screenshot shows the VS Code interface with the REST Client extension. The left sidebar displays the 'My Workspace' tree with folders for 'Collections', 'Environments', and 'History'. The main editor area shows a REST Client file named 'http://localhost:3001/api/v1/users/login/'. The request is a POST method with a body containing email and password. The response is displayed in the 'Body' tab, showing a JSON object with token, message, and user details. The status bar at the bottom indicates the request was successful (200 OK) and shows various icons for debugging and settings.

## Validaciones con Zod:

## Get:

Get by id:

GET http://localhost:3001/api/v1/users/3

Status: 200 OK Time: 176 ms Size: 486 B

```
1 {
2   "NewUser": {
3     "id": 1,
4     "name": "Heidy",
5     "email": "Heidy@gmail.com",

```

Delete:

The screenshot displays a REST client interface with a dark theme. At the top, a list of requests is shown: GET, POST, GET, DELETE, POST, and PATCH. The selected request is a DELETE method to the URL `http://localhost:3001/api/v1/users/1`. Below the URL bar, the 'DELETE' method is selected from a dropdown, and a 'Send' button is visible. The interface includes tabs for Params, Authorization, Headers (6), Body, Pre-request Script, Tests, and Settings. The 'Body' tab is active, showing a JSON response in 'Pretty' format: `{ "message": "X User deleted succesfully.! X" }`. The status bar at the bottom indicates a successful response with status 200 OK, a time of 250 ms, and a size of 283 B.
